PVC window sills

Our PVC window sills combine modern design with exceptional performance, making them the perfect finishing touch for any window installation. Crafted from high-quality, moisture-resistant PVC, these sills are built to withstand daily wear and tear while maintaining their sleek appearance for years.

Whether you're renovating a home or outfitting a new building, our window sills offer:

- Waterproof and scratch-resistant surfaces
- UV stability to prevent fading and discoloration
- Easy cleaning with just a damp cloth—no special products needed
- Lightweight yet strong construction for easy installation
- A variety of colors and finishes, including wood-effect textures, to match any interior style

Available widths of PVC window sills:

1. 15 cm
2. 20 cm
3. 25 cm
4. 30 cm

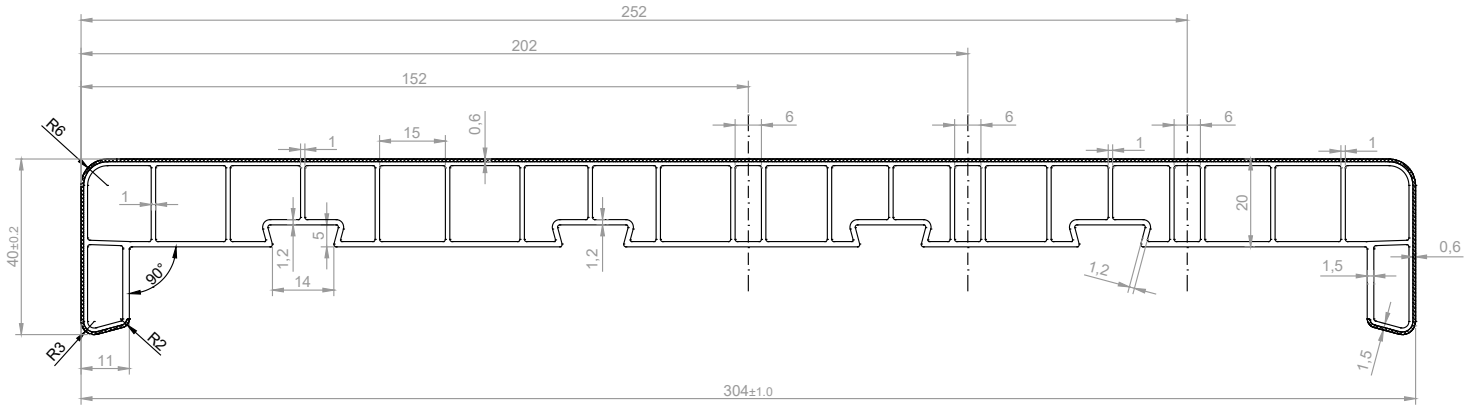

Available colors of PVC window sills:

1. Golden Oak
2. Marble
3. Anthracite
4. White

Window sills

Designed for both residential and commercial use

Drawings

The drawing above shows the unique design of our PVC window sills. Depending on the requirements and demand, the sills are cut to the dimensions indicated above.
